Letter of recommendation

Hörsching, July 22<sup>nd</sup> 2022

After a period of time selling our aircraft fleet we decided to come back in the world of aviation and prepare the flightplan for the next generation of AMERER AIR.

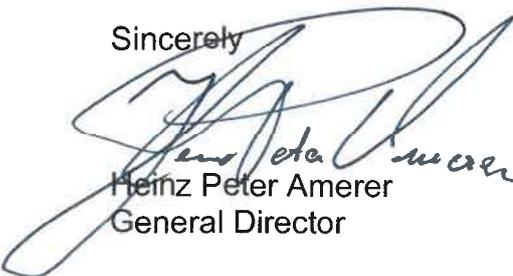

During the selection of our aircraft we had the pleasure to get in touch with Mr. Gerald Hintermayr, owner of "Aircraft & More" in Austria, who offered us a Swiss registered Socata TB20.

From the very first contact through the act of pre-purchase inspection and completion of the required custom process, including the rectification of the open maintenance issues, Gerald convinced us with his professionalism and hand shake quality throughout the ferry flight. It could not have been any more professional. It was a pleasure working with a businessman and pilot like Gerald. He did the job with overview and such an achievement for us and the seller at the same time.

If you are in need of having an aircraft sold or purchased, we would highly recommend that you contact Gerald Hintermayr @ Aircraft & More in Austria.

We wish Gery and his company for the future happy landings and a successful business.

Sincerely

Heinz Peter Amerer  
General Director
