

Dear Gerald,

I have long felt the need to thank you from the bottom of my heart and to express my respect for your personality. I have now been able to experience you in all areas of your business. I experienced the highest professionalism and an overly pleasant communication - whether in the accompaniment in the purchase or in the sale of aircrafts.

Now you have bought an airplane from our club, I was allowed to sell you our C172S on behalf of our flying club. The evaluation was done objectively and exclusively according to the available facts. You gave us a fair price for all parties involved and also paid the bill on the same day of the decision. In the aircraft market I can recommend you with the best conscience, because this professionalism and trustworthiness is incomparable. Your character foundation is marked by fairness, empathy and high ethics.

I have been observing the development of your company Aircraft And More for many years now and I am pleased about the healthy growth of your company. On behalf of the FLIEGERCLUB TRAUNSEE at the airfield Gmunden I wish you continued success and joy with your passion Aircraft And More.

Best regards

*Heinz*
